“A Rose for Every Garden”

INTRODUCTION

With an expression of appreciation for your past patronage we present you with this list of material. May we supply your needs again this season? Many plants are listed into groups, such as Evergreen Trees, Evergreen Shrubs, Shade Trees, Deciduous Trees, Flowering Shrubs, Berried Shrubs, Shrubs for Shady Places, Plants for Hedges, Vines and Creepers and others.

Prices have been largely omitted. Changing market prices and a quick turn over makes its possible to quote competitive prices of the day for the very best Certified Plant Material obtainable. All hardy plants are practically free of all injurious insects and pests at time of sale and delivery, this being the case we guarantee every plant we sell to live up to the estimated results when our instructions are closely followed up. We replace any plant free of charge within one growing season when proven unsatisfactory, except these plants that are sold for resale as these are beyond our control.

All prices are quoted on a cash basis only.

Free delivery can be arranged.

An extra charge is made for planting. When we plant our stock we furnish at no extra cost all the needed stable dressing to give our plants a good start. When an element is required to correct the soil we shall not accept any planting unless we are allowed to use whatever is required and make a charge for same.

Conveniently located on Route 6, only 3 miles east of New Bedford on the way to Cape Cod, plenty of parking space off the highway invites you to our neat and compact nursery. Open every day from daylight to after dark. Saturday nights with complete illumination open until after closing hours of stores in the city.
